

VENHANS

VET European Networking Enhancement

The VENHANS VET European Networking Enhancement Project

The VENHANS Project adopts an ambitious approach to address the following current issues regarding european VET systems reinforcement:

- Limited representativeness of VET providers at national and regional level;
- Intermediation through strategic umbrella organizations and not direct access;
- Awareness, sharing and promotion of innovative and best VET practices applied in Europe;
- Accessibility to multilingual resources and services in order to build stronger partnerships among VET providers.

The VENHANS Project aims to overcome the following challenges:

- Limited representativeness at national/regional level.
- Intermediation and not direct access.
- Low long-term of outputs and the work done.
- Language issues from national diversity.
